The Benefits of iTEP Conversation

Speaking is often the most crucial yet underdeveloped skill in language learning. However, many English tests don't assess practical speaking skills in any form. Others include speaking as a small fragment within otherwise grammar-based tests. But sometimes, a straightforward 30-minute speaking assessment is just what we need.

iTEP Conversation was designed to give test-takers an opportunity to speak freely about things they already know. Questions are friendly and follow the general patterns of casual conversations. All questions are free-response (as opposed to multiple-choice or fill-in-the-blank questions) to allow test-takers to exercise critical thinking and speak as much as they are able to.
